All information correct at time of going to print.

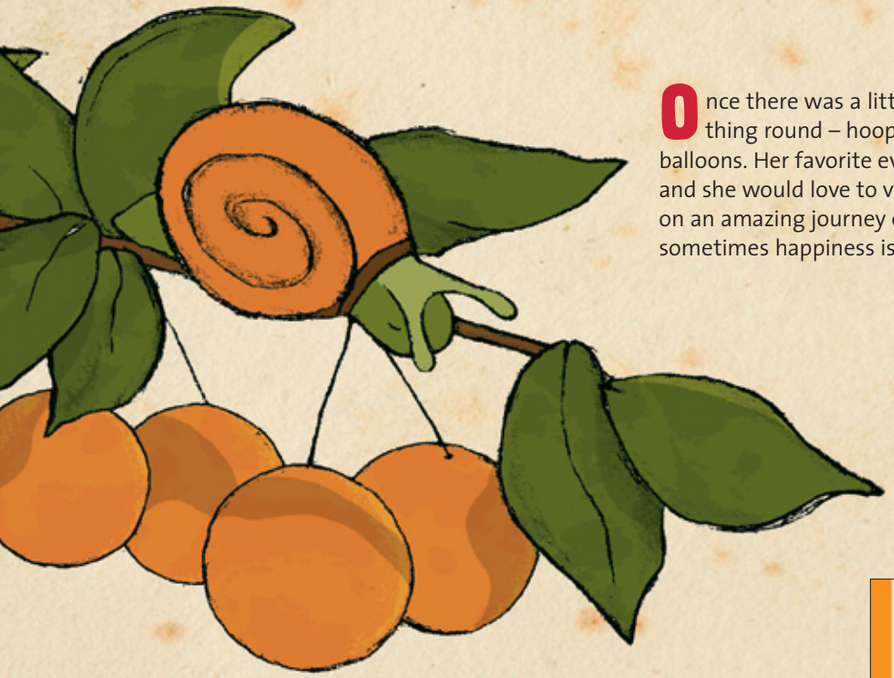
Dear Publisher,

At NordSüd Verlag we like nothing better than discovering and growing new talent, which is why we are very excited about Sebastian Loth, whose first book **Remembering Crystal** was a success around the globe and whose new book **Mirabel** (page 2/3) is quite literally out of this world! Also Anke Faust, whose wonderful, unique style has created the charming **Lina Chatterbox** (page 4/5). That's not all, our new **Bambi** (page 8/9) and the wealth of stories and fairy tales listed inside show how our years of experience have helped us to understand and reinvigorate classic children's stories again and again.

If we have whetted your appetite for more, sign up to our new e-mail newsletter at **http://www.nord-sued.com/international/index.asp** or contact us for sample copies and further information.

With very best wishes,

Andrew Rushton Katharina Fischer



Once there was a little snail who loved everything round – hoops and wheels and balls and balloons. Her favorite ever round thing is the moon and she would love to visit it, but how? She embarks on an amazing journey of discovery and finds that sometimes happiness is closer than it appears.
